It Really Is That Easy

Quality is more than a tradition, it's a way of doing business.

GUARDRAIL & GUARDRAIL POSTS

Hallowell guardrail is designed, engineered, and manufactured to the highest industry standards, using heavy gauge steel, and a unique integrated fastening system. This integrated system incorporates the fastening hardware as part of the column design so there will be no "stripped" out connections. A properly installed and anchored guardrail system is designed to safeguard people, property and facility assets from accidents involving material handling equipment.

Each Hallowell Guardrail system is designed for your specific safety application. It is recommended to use 18" high for impact protection of facility assets including office

in-plants, conveyor systems, mezzanines, shelving and racking systems. The use of the 42" double rail system is recommended when protecting and separating pedestrians and personnel from your material handling equipment. These areas include walkways, bathrooms, entry and exit points, electrical panels, break areas, and exposed work stations.

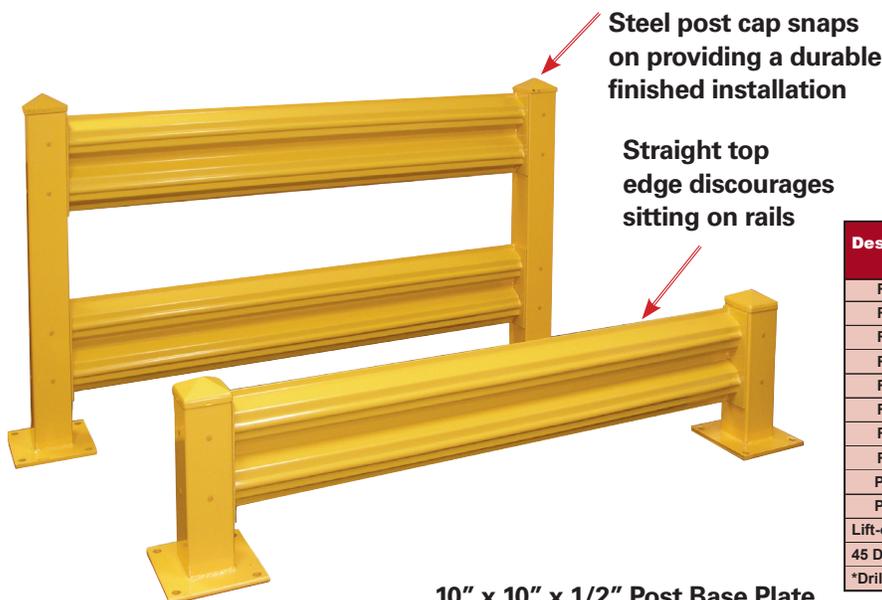

Guardrail components have an industry approved, safety-yellow powder-coated finish. All guardrail sections are shipped with the required fasteners and other necessary hardware to properly install and anchor into your concrete floor.

Grade 5 hex nuts are welded inside posts providing maximum bolt grip for superior installation

Lift-out rail adapter allows for access when needed

Steel post cap snaps on providing a durable finished installation

Straight top edge discourages sitting on rails

10" x 10" x 1/2" Post Base Plate Includes (4) LDT anchors

| Description | Nom. Length (Ft.) | Height (in.) | Weight (Lbs.) | Catalog Number |
|------------------------------|-------------------|--------------|---------------|----------------|
| Rail | 3' | | 22 | GR-03 |
| Rail | 4' | | 26 | GR-04 |
| Rail | 5' | | 35 | GR-05 |
| Rail | 6' | | 41 | GR-06 |
| Rail | 7' | | 46 | GR-07 |
| Rail | 8' | | 53 | GR-08 |
| Rail | 9' | | 60 | GR-09 |
| Rail | 10' | | 65 | GR-10 |
| Post | | 18" | 33 | GRPA18-1 |
| Post | | 42" | 51 | GRPA42-2 |
| Lift-out rail Adapter (pair) | | | 12 | LOA |
| 45 Degree Angle Bracket | | | 6 | 45-BRACKET |
| *Drill Bit | - | - | 0.1 | 17mm-Drill-Bit |

* Required to install /anchor posts

SAFETY YELLOW

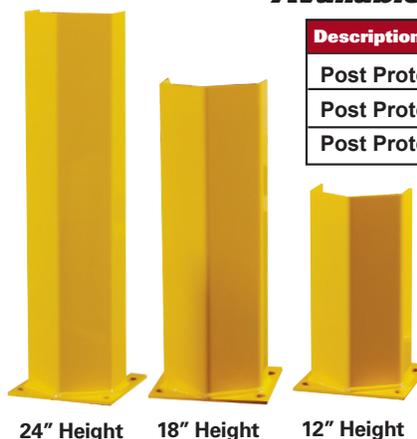

HALLOWELL POST PROTECTORS

Designed to protect your investment, Hallowell Post Protectors are fabricated of extra heavy-duty steel and are available in three heights to meet your specific requirements. Anchor plates are 1/4" steel that is welded to 3/8" formed steel uprights and finished in a bright safety-yellow powder coat.

7" x 7" x 1/4" Base Plate with the industry's widest throat increasing space between rack post and protector allowing the protector to absorb impact without hitting the post

Available in Three Heights.

| Description | Height | Catalog No. |
|----------------|--------|-------------|
| Post Protector | 12" | PP070712SY |
| Post Protector | 18" | PP070718SY |
| Post Protector | 24" | PP070724SY |
